Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Subspecies *hallii* previously CRPR 2B.1; taxonomic distinctiveness of sspp. Is not supported; needs genetic, cytological, and morphological study. Threatened by grazing, vehicles, and groundwater drawdown. See *An Account of an Expedition from Pittsburgh to the Rocky Mountains* 1:453 (1823) for original description, *Flora of North America: Exogenous or Dicotyledonous Plants* 2(3):487 (1843) for taxonomic treatment, and *Publications of the Carnegie Institute of Washington* 504:104-107 (1938) for original description of all sspp. Documented in CA.
