### Notes

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## Notes

Known from Carrington Pt. Peninsula and west of Jaw Gulch (both SRO Isl.); also one unconfirmed location at Pt. Bennett (SMI Isl.), where not seen since 1938, despite recent surveys. Mainland plants previously included in *C. mollis* are *C. affinis* ssp. *affinis*. Threatened by cattle grazing and trampling, feral herbivores, and non-native plants. Likely parasitic on *Isocoma menziesii* var. *sedoides*. See *Proceedings of the Academy of Natural Sciences of Philadelphia* Vol. XCIX: 185-186 (1947) for original description and *Madroño* 38(2):141-142 (1991) for taxonomic reassessment.
