Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Rediscovered in 1992 by J. Stebbins and K. Kirkpatrick. Plants from inner north coast ranges may actually be *S. diploscypha*; needs study. See *Contributions from the Dudley Herbarium* 3:55-56 (1940) for original description.
