

## Report for *Antirrhinum subcordatum*

### TAXON DETAILS

© 2015 Dean Wm. Taylor

### Classification

|                      |                                     |
|----------------------|-------------------------------------|
| Scientific Name      | <i>Antirrhinum subcordatum</i> Gray |
| Common Name          | dimorphic snapdragon                |
| Family               | Plantaginaceae                      |
| Element Code         | PDSCR2S070                          |
| USDA Plants Symbol   |                                     |
| Synonyms/Other Names |                                     |

### Conservation Status

|                            |            |
|----------------------------|------------|
| California Rare Plant Rank | 4.3        |
| Global Rank                | G3         |
| State Rank                 | S3         |
| CESA                       | None       |
| FESA                       | None       |
| Other Status               | USFS_S     |
| CRPR Changes               |            |
| Date Added                 | 1974-01-01 |
| Last Update                | 2023-05-02 |

### Ecology and Life History

|                      |  |
|----------------------|--|
| Lifeform             | annual herb                                |
| Blooming Period      | Apr-Jul                                    |
| Elevation m (ft)     | 185-800 (605-2625)                         |
| General Habitats     | Chaparral, Lower montane coniferous forest |
| Microhabitat Details |  |
| Microhabitat         | Serpentine (sometimes)                     |

## Threat List Data from the CNDDDB

|                                |                  |                    |
|--------------------------------|------------------|--------------------|
| <b>Threat List Total:</b>      |                  | 6                  |
|                                | <b>Total EOs</b> | <b>Percent EOs</b> |
| <b>EOs with Threats Listed</b> | <b>19</b>        | <b>39%</b>         |
| <b>Threat List:</b>            |                  |                    |
| Grazing                        | 8                | 16%                |
| Other                          | 8                | 16%                |
| Dam/Inundation                 | 6                | 12%                |
| Road/trail construction/maint. | 2                | 4%                 |
| Recreational use (non-ORV)     | 1                | 2%                 |
| Logging                        | 1                | 2%                 |

## Element Occurrence Data from the CNDDDB

|                                   |    |
|-----------------------------------|----|
| <b>Total Element Occurrences:</b> | 49 |
| <b>Element Occurrence Ranks:</b>  |    |
| Excellent (A)                     | 11 |
| Good (B)                          | 3  |
| Fair (C)                          | 4  |
| Poor (D)                          | 0  |
| None (X)                          | 1  |
| Unknown (U)                       | 30 |
| <b>Occurrence Status</b>          |    |
| Historical, > 20 years            | 49 |
| Recent, < 20 years                | 0  |
| <b>Presence</b>                   |    |
| Presumed Extant                   | 48 |
| Possibly Extirpated               | 1  |
| Presumed Extirpated               | 0  |

## Location

|   |     |
|---|-----|
| <b>California Endemic</b>   | Yes |
| <b>Counties</b>   |     |
| Colusa (COL), Glenn (GLE), Lake (LAK), Tehama (TEH)   |     |
| <b>States</b>   |     |
| California (CA)   |     |
| <b>Quads</b>  |     |
| Chrome (3912265), Cold Fork (4012226), Fouts Springs (3912236), Gilmore Peak (3912235), Hall Ridge (3912276), Highland Springs (3812288), Lodoga (3912234), Lowrey (4012215), Mitchell Gulch (4012234), Newville (3912275), Paskenta (3912285), Raglin Ridge (4012216), Riley Ridge (3912286), Rosewood (4012235), St. John Mtn. (3912246), Stonyford (3912245), Tomhead Mtn. (4012227), Whispering Pines (3812276) |     |

## **Notes**

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.
