

## Report for *Suaeda esteroa*

### TAXON DETAILS

#### Classification

|                      |   |
|----------------------|---|
| Scientific Name      | <i>Suaeda esteroa</i> Ferren & Whitmore |
| Common Name          | estuary seablite                        |
| Family               | Chenopodiaceae                          |
| Element Code         | PDCHE0P0D0                              |
| USDA Plants Symbol   | <u>SUES</u>                             |
| Synonyms/Other Names |   |

#### Conservation Status

|                            |            |
|----------------------------|------------|
| California Rare Plant Rank | 1B.2       |
| Global Rank                | G3         |
| State Rank                 | S2         |
| CESA                       | None       |
| FESA                       | None       |
| Other Status               |            |
| CRPR Changes               |            |
| Date Added                 | 1984-01-01 |
| Last Update                | 2021-05-26 |

#### Ecology and Life History

|                      |                                   |
|----------------------|-----------------------------------|
| Lifeform             | perennial herb                    |
| Blooming Period      | (Jan-May)Jul-Oct                  |
| Elevation m (ft)     | 0-5 (0-15)                        |
| General Habitats     | Marshes and swamps (coastal salt) |
| Microhabitat Details |                                   |
| Microhabitat         |                                   |

## Threat List Data from the CNDDDB

|                                |                  |                    |
|--------------------------------|------------------|--------------------|
| <b>Threat List Total:</b>      |                  | 4                  |
|                                | <b>Total EOs</b> | <b>Percent EOs</b> |
| <b>EOs with Threats Listed</b> | <b>8</b>         | <b>21%</b>         |
| <b>Threat List:</b>            |                  |                    |
| Road/trail construction/maint. | 4                | 10%                |
| Development                    | 3                | 7%                 |
| Non-native plant impacts       | 1                | 2%                 |
| Other                          | 1                | 2%                 |

## Element Occurrence Data from the CNDDDB

|                                   |    |
|-----------------------------------|----|
| <b>Total Element Occurrences:</b> | 39 |
| <b>Element Occurrence Ranks:</b>  |    |
| Excellent (A)                     | 0  |
| Good (B)                          | 2  |
| Fair (C)                          | 0  |
| Poor (D)                          | 0  |
| None (X)                          | 0  |
| Unknown (U)                       | 37 |
| <b>Occurrence Status</b>          |    |
| Historical, > 20 years            | 20 |
| Recent, < 20 years                | 19 |
| <b>Presence</b>                   |    |
| Presumed Extant                   | 39 |
| Possibly Extirpated               | 0  |
| Presumed Extirpated               | 0  |

## Location

|                           |    |
|---------------------------|----|
| <b>California Endemic</b> | No |
|---------------------------|----|

### **Counties**

Los Angeles (LAX), Orange (ORA), San Diego (SDG), Santa Barbara (SBA)\*, Ventura (VEN)

### **States**

Baja California (BA), California (CA)

### **Quads**

Del Mar (3211782), Encinitas (3311713), Goleta (3411947)\*, Imperial Beach (3211751), Jamul Mountains (3211668), La Jolla (3211772), Laguna Beach (3311757), Long Beach (3311872), Los Alamitos (3311871), National City (3211761), Newport Beach (3311768), Point Loma (3211762), Point Mugu (3411911), San Clemente (3311745), San Luis Rey (3311723), San Pedro (3311863), Seal Beach (3311861), Torrance (3311873), Tustin (3311767)

### **Notes**

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## **Notes**

Potentially threatened by development and recreation. See *Madroño* 30(3):181-190 (1983) for original description.
