Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Much habitat already lost to development; also threatened by non-native grasses. Closely related to and difficult to distinguish from *C. staticoides*. See *Annals of the Missouri Botanical Garden* 21:61 (1934) for original description, and *Phytologia* 66(2):159-160 (1989) for taxonomic treatment.
