Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Once rather common in proper habitat; now greatly reduced by development. Also threatened by foot traffic, non-native plants, hydrological alterations, cattle grazing and trampling. State listed as Endangered in OR. See *Proceedings of the California Academy of Science* 1:61 (1855) for original description, *Brittonia* 25:135-158 (1973) for taxonomic treatment, and *Madroño* 41(4):316-327 (1994) for ecological discussion.
