

## Report for *Cirsium praeteriens*

### TAXON DETAILS

#### Classification

|                      |  |
|----------------------|--|
| Scientific Name      | <i>Cirsium praeteriens</i> J.F. Macbride |
| Common Name          | lost thistle                             |
| Family               | Asteraceae                               |
| Element Code         | PDAST2E2B0                               |
| USDA Plants Symbol   | <u>CIPR2</u>                             |
| Synonyms/Other Names |  |

#### Conservation Status

|                            |            |
|----------------------------|------------|
| California Rare Plant Rank | 1A         |
| Global Rank                | GX         |
| State Rank                 | SX         |
| CESA                       | None       |
| FESA                       | None       |
| Other Status               |            |
| CRPR Changes               |            |
| Date Added                 | 2001-01-01 |
| Last Update                | 2022-12-06 |

#### Ecology and Life History

|                      |                |
|----------------------|----------------|
| Lifeform             | perennial herb |
| Blooming Period      | Jun-Jul        |
| Elevation m (ft)     | 0-100 (0-330)  |
| General Habitats     |                |
| Microhabitat Details |                |
| Microhabitat         |                |

## Threat List Data from the CNDDDB

|                                |                  |                    |
|--------------------------------|------------------|--------------------|
| <b>Threat List Total:</b>      |                  | 0                  |
|                                | <b>Total EOs</b> | <b>Percent EOs</b> |
| <b>EOs with Threats Listed</b> | <b>0</b>         | <b>%</b>           |
| <b>Threat List:</b>            |                  |                    |

## Element Occurrence Data from the CNDDDB

|                                   |   |
|-----------------------------------|---|
| <b>Total Element Occurrences:</b> | 1 |
| <b>Element Occurrence Ranks:</b>  |   |
| Excellent (A)                     | 0 |
| Good (B)                          | 0 |
| Fair (C)                          | 0 |
| Poor (D)                          | 0 |
| None (X)                          | 1 |
| Unknown (U)                       | 0 |
| <b>Occurrence Status</b>          |   |
| Historical, > 20 years            | 1 |
| Recent, < 20 years                | 0 |
| <b>Presence</b>                   |   |
| Presumed Extant                   | 0 |
| Possibly Extirpated               | 0 |
| Presumed Extirpated               | 1 |

## Location

|                                     |     |
|-------------------------------------|-----|
| <b>California Endemic</b>           | Yes |
| <b>Counties</b>                     |     |
| San Mateo (SMT), Santa Clara (SCL)* |     |
| <b>States</b>                       |     |
| California (CA)                     |     |
| <b>Quads</b>                        |     |
| Palo Alto (3712242)*                |     |

### **Notes**

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## Notes

Known from only two collections from Palo Alto (last in 1901). Perhaps represents a casual introduction from the Old

World. Not in *The Jepson Manual*. See *Contributions from the Gray Herbarium* 53:19 (1918) for original description.
