### **Notes**

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## Notes

Known only from a single plant at Pt. Reyes NS from 1947; a similar plant was collected along the road to McClure's

Beach in the 1960s, but was not preserved for verification. Suitable habitat exists, but re-discovery attempts have been unsuccessful; needs field surveys. Similar to *C. affinis* and *C. wightii*, but occurs in different habitat. A synonym of *C. chrymactis* in *TJM* (1993); name misapplied. Not in *TJM* 2. See *Leaflets of Western Botany* 5(5):91-92 (1948) for original description.
