Element Occurrence Data from California Natural Diversity Database

Total Element Occurrences 0

Element Occurrence Ranks
   Excellent (A) 0
   Good (B) 0
   Fair (C) 0
   Poor (D) 0
   None (X) 0
   Unknown (U) 0

Occurrence Status
   Historical, > 20 years 0
   Recent, < 20 years 0

Presence
   Presumed Extant 0
   Possibly Extirpated 0
   Presumed Extirpated 0

Location
   CA Endemic Yes

Counties
   Amador (AMA)?, El Dorado (ELD)?, Lassen (LAS), Mariposa (MPA), Nevada (NEV), Placer (PLA), Sierra (SIE)?, Tuolumne (TUO)

States
   California (CA)

Quads
   Ackerson Mtn. (3711977), Alleghany (3912047), Bear River Reservoir (3812052)?, Boards Crossing (3812032), Caldor (3812054), Duncan Peak (3912025), El Capitan (3711966), Gold Lake (3912066), Half Dome (3711965), Kyburz (3812073), Leek Spring Hill (3812063)?, Liberty Hill (3812031), Mariposa Grove (3711955), Mokelumne Peak (3812051), Peddler Hill (3812053)?, Sierra City (3912056)?, Tamarack Flat (3711976), Tragedy Spring (3812062)?, Westwood West (4012131), Yosemite Falls (3711975)

Notes
   Definitions of codes preceding a county and/or quad:
   * Presumed extirpated
   (*) Possibly extirpated
   Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

General Notes
   Move to CRPR 1B or 4? Taxonomic distinctiveness from ssp. hutchisonii is uncertain; needs further study. Threatened by road construction, trail construction, recreational activities, and vehicles. Possibly threatened by horticultural collecting. See Proceedings of the California Academy of Sciences II 4(4):88 (1894) for original description.
