### Notes

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## General Notes

Several populations at the southern end of its distribution in CA are extirpated. Many collections old; need field surveys. Possibly threatened by logging, meadow succession, and climate change. See *Species Plantarum* 1:118 (1753) for original description.
