### Notes

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## General Notes

Restricted to a single agricultural field in SMT Co. Tetramerous flowers place it with *L. macounii* from Canada, but molecular data place it within *L. douglasii*. See *Madroño* 45(2):184 (1998) for first record of occurrence in CA, *Systematic Botany* 35(3):552-558 (2010) for molecular phylogeny, and *Madroño* 60(3):229-235 (2013) for original description.
