## Notes

Move to CRPR 2B? Previously identified as *S. gigantea*, which does not occur in CA. Similar to *S. elongata*; many annotations of *S. elongata* records are needed in order to determine distribution and rarity. See *The Flora of the Palouse Region*, p. 185 (1901) by C.V. Piper and R.K. Beattie for original description and *Sida* 20(4):1611-1612 (2003) for taxonomic treatment.
