Definitions of codes preceding a county and/or quad:

- * Presumed extirpated
- (') Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

**General Notes**

Discovered in the 1980’s by Wilma Follette. Potentially threatened by non-native plants. Possibly threatened by insect herbivory. Similar to *C. jepsonii*; primarily differs from it in having 5-merous flowers that are white, light blue, or pink. See *Madroño* 61(4):399-406 (2014) for original description.
