Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

References to this taxon growing in Butte County in Zika et al. 2018 are an error. Reports of this species growing near 900 m in elevation may be based on a label error for *Ahart s.n.* (CAS:BOT:932358) which is from La Porte with a stated elevation of 914 m; La Porte is at 1525 m, not 914. This error is likely responsible for the low elevation of 900 m given in the *Jepson eFlora*.

Threats

Threatened by fire, fire suppression activities, road maintenance, vehicles, and horticultural collecting.

Taxonomy

Threatened by fire, fire suppression activities, road maintenance, vehicles, and horticultural collecting.
