* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Threatened by trampling and cattle grazing. Previously treated as *E. nigrum* ssp. *hermaphroditum*, which has bisexual flowers; most CA plants seem dioecious. See *Four Seasons* 4(4):19-20 (1974) for species account, and *Madroño* 23(5):299 (1976) for discussion of HUM Co. discovery.
