Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

General Notes

Move to List 2? Location, rarity, and endangerment information needed. Possibly indistinct from *G. affinis* var. *ovata*; needs further study. Searches of major herbaria in 1992 failed to identify confirmed CA localities. See *G. affinis* var. *ovata* in *TJM* (1993); a synonym of this plant in *TJM* 2.
