

**Considered But Rejected: *Argemone munita* ssp. *argentea***

**Background**

Proposed for addition to 6th Ed. but instead postponed. Not sure who proposed this taxon for addition (probably just found from Kartesz work?) and why it wasn't CBRd for 6th Edition except perhaps from time constraints. There's no evidence in the file to add it other than contrary comments suggesting it doesn't warrant taxonomic recognition and that it's a syn. of *A. munita* in TJM 1993. Also syn. of *A. munita* in TJM2 (no subtaxa recognized).

**Inventory Record**

*Argemone munita* ssp. *argentea*

CBR: A synonym of *A. munita*; a common taxon.
