\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## Notes

Previously CRPR 4.3; move to CRPR 1B or 4? May be taxonomically distinct or just a phenotypic response to the environment; needs further study. A synonym of *Boechea repanda* in *TJM* 2; *B. repanda* was recently placed into the genus *Yosemitea*, but varieties were not recognized. See *Flora of California* 2(2):63 (1936) by W.L. Jepson for original description, *Novon* 13:388 (2003) for taxonomic treatment, and *Systematic Botany* 38(1):192-209 (2013) for placement of *B. repanda* into the genus *Yosemitea*.
