Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Move to List 4? Location, rarity, and endangerment information needed. Possibly threatened by erosion and recreational activities. Dried material difficult to identify; apparently other taxa are often misidentified as *C. lewisii*. See *Contributions from the U.S. National Herbarium* 37(5):275 (1969) for original description.
