### Classification

|                      |                                                                           |
|----------------------|---------------------------------------------------------------------------|
| Scientific Name      | <i>Glehnia littoralis</i> (Gray) Miq. ssp. <i>leiocarpa</i> (Math.) Hult. |
| Common Name          | American glehnia                                                          |
| Family               | Apiaceae                                                                  |
| Element Code         | PDAPI13011                                                                |
| USDA Plants Symbol   | <u>GLLIL</u>                                                              |
| Synonyms/Other Names |                                                                           |

### Conservation Status

|                            |                |
|----------------------------|----------------|
| California Rare Plant Rank | 4.2            |
| Global Rank                | G5T5           |
| State Rank                 | S2S3           |
| CESA                       | None           |
| FESA                       | None           |
| Other Status               | SB_CalBG/RSABG |
| CRPR Changes               |                |
| Date Added                 | 2001-01-01     |
| Last Update                | 2022-12-06     |

### Ecology and Life History

|                      |                |
|----------------------|----------------|
| Lifeform             | perennial herb |
| Blooming Period      | May-Aug        |
| Elevation m (ft)     | 0-20 (0-65)    |
| General Habitats     | Coastal dunes  |
| Microhabitat Details |                |
| Microhabitat         |                |

## Threat List Data from the CNDDDB

|                         |           |             |
|-------------------------|-----------|-------------|
| Threat List Total:      |           | 0           |
|                         | Total EOs | Percent EOs |
| EOs with Threats Listed | 0         | 0%          |
| Threat List:            |           |             |

## Element Occurrence Data from the CNDDDB

|                            |   |
|----------------------------|---|
| Total Element Occurrences: | 0 |
| Element Occurrence Ranks:  |   |
| Excellent (A)              | 0 |
| Good (B)                   | 0 |
| Fair (C)                   | 0 |
| Poor (D)                   | 0 |
| None (X)                   | 0 |
| Unknown (U)                | 0 |
| Occurrence Status          |   |
| Historical, > 20 years     | 0 |
| Recent, < 20 years         | 0 |
| Presence                   |   |
| Presumed Extant            | 0 |
| Possibly Extirpated        | 0 |
| Presumed Extirpated        | 0 |

## Location

|                    |    |
|--------------------|----|
| California Endemic | No |
|--------------------|----|

### Counties

|                                                                |
|----------------------------------------------------------------|
| Del Norte (DNT), Humboldt (HUM), Mendocino (MEN), Sonoma (SON) |
|----------------------------------------------------------------|

### States

|                                                            |
|------------------------------------------------------------|
| Alaska (AK), California (CA), Oregon (OR), Washington (WA) |
|------------------------------------------------------------|

### Quads

|                                                                                                                                                                                                                                                                                                                                                                                     |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Arcata North (4012481), Cannibal Island (4012463), Crannell (4112411), Crescent City (4112472), Eureka (4012472), Fern Canyon (4112441), Ferndale (4012453), Fields Landing (4012462), Fort Bragg (3912347), Orick (4112431), Plantation (3812353), Point Arena (3812386), Requa (4112451), Rodgers Peak (4112421), Sister Rocks (4112462), Trinidad (4112412), Tyee City (4012482) |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

## **Notes**

Definitions of codes preceding a county and/or quad:

\* Presumed extirpated

(\*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

## **Notes**

Threatened by non-native plants and vehicles. See *Annals of the Missouri Botanical Garden* 15:95 (1928) for original description, and *Flora of Alaska and Yukon* 7:1180 (1947) for revised nomenclature.
