Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Threatened by development and non-native plants. Does plant occur in MRN Co.? Collection from 485C is intermediate with ssp. *malviflora*. Need quads for SMT Co. See *University of Washington Publications in Biology* 18:23 (1957) for original description.
