Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Can be locally common. Potentially threatened by grazing, trampling, development, and timber harvest activities. Considered critically imperiled in NV. Not in *TJM* (1993). See *Rhodora* 104(919):276 (2002) for original description.
