Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Rediscovered at Point Arena in 2011 by R. Korhummel. Many historical occurrences may be extirpated; need field surveys. Possibly threatened by non-native plants and shoreline retreat. Known to occur on *Gnaphalium*, *Silene*, and *Lupinus* spp. in MEN Co.; and on *Polycarpon tetraphyllum* and *Calystegia purpurata* ssp. *saxicola* with *Sanicula arctopoides* nearby in SON Co. Similar to *C. pacifica* var. *pacifica* and *C. salina*. See *C. salina* var. *papillata* in *The Jepson Manual* (1993). Treated as extirpated in *TJM* 2. See *Bulletin of the Torrey Botanical Club* 69(7):541-543 (1942) for original description and *Systematic Botany* 34(4):787-795 (2009) for taxonomic treatment.
