Notes

Definitions of codes preceding a county and/or quad:

* Presumed extirpated

(*) Possibly extirpated

Species may be present in other areas where conditions are favorable. These data should NOT be substituted for pre-project review or for on-site surveys.

Notes

Extirpated from southern California, and mostly extirpated from the Central Valley. Several SAC Co. occurrences not relocated during fieldwork in 2005. See *Pittonia* 2:158 (1890) for original description.

Threats

Threatened by grazing, development, recreational activities, non-native plants, road widening, and channel alteration and maintenance.

Taxonomy

Threatened by grazing, development, recreational activities, non-native plants, road widening, and channel alteration and maintenance.
